## DETAILED ACTION

### ***Allowable Subject Matter***

2. Claims 95 – 120 are allowed.

3. The following is an examiner's statement of reasons for allowance: Applicant teaches a method of switching from a first sound signal coding mode to a second sound signal coding mode at the junction between a previous frame coded according to the first coding mode and a current frame coded according to the second coding mode, wherein the sound signal is filtered through a weighting filter to produce, in the current frame, a weighted signal, comprising: calculating a zero-input response of the weighting filter; windowing the zero-input response so that said zero-input response has an amplitude monotonically decreasing to zero after a predetermined time period; and in the current frame, removing from the weighted signal the windowed zero-input response.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
